308 Black Stallion Price List

Effective June, 2009

Part number	Description	Price
BS308.001*	Black Stallion ignition kit (carbureted engines only)	2,695.00
BS308.004*	Black Stallion ignition kit (CIS injection engines only)	2,695.00
BS308.002	distributor cap	95.00
BS308.003	ignition rotor	45.00

*This comes as a kit which replaces the complete standard ignition setup. Including: single distributor, ECU, high energy coil, red silicone ignition wire set, wire supports, CDrom, all wiring looms, fittings/relay/switch, full instructions etc.

The original system relied on a mechanical advance which at best is a compromise. The programmable unit provides superior ignition performance as it can be fine tuned to suit the needs of your engine. Recommended for modified engines especially our 3.5L conversion. Works on single or dual distributor models. Specify spline or slot drive.
