**Trepezzo**  
**Ferrari 3-Piece Custom Wheels**  
**for 308, 328 and GT4**

**RR308-17**  
silver painted center

Razzo Rosso racing components has taken up the challenge to provide Ferrari owners with high quality, light weight, application specific wheels.

Starting with the solid engineering of the standard Ferrari wheel, these designs improve and enhance on the originals without taking away any of the qualities so appreciated by Ferraristas.

Light weight with strength is a key Ferrari design imperative that permeates the design philosophy at Razzo Rosso. Beginning with CAD/CAM designs for the forged billet wheel centers, additional weight savings is realized by pocket-machining the hubs and, optionally, using titanium assembly bolts (chrome steel bolts are standard).

The outer rims are hand-polished to a chrome-like luster and the inner rims specially coated for easy brake dust cleaning.

Typical weights are 18 to 20 lbs/wheel.

The final standard finish on the wheel centers is silver (other colors optional) with polished centers available at extra cost. See price list for details.
